DECODED MESSAGE SHOWS BERNSTORFF HYPOCRITE

EDITOR OF PROVIDENCE JOURNAL MAKES
PUBLIC MESSAGE HIS OFFICE TOOK
FROM THE WIRELESS

THEN DECIPHERED INGENIOUS CODE

(By United Press)
A cipher message which proved that Berlin directed the sinking of the Lusitania is made public for the first time in the World's Work magazine, published today. John R. Rathom, editor of the Providence Journal, which exposed numerous German plots in this country during the last three years, in an article giving in detail the methods he used to unearth the work of the German agents, quotes this message from his files, and explains how it was decoded. The message in cypher reads as follows: From—Berlin Foreign Office.
To Botschaft, Washington.
\$69 (44-W)—Welt nineteen-fifteen warne 179 29 1 stop 175 1 2 stop dursch 622 2 4 stop 19 7 18 stop LIX 11 3 4 5 6.

This cipher message came through from Nauen, Germany, to Sayville, Long Island, at 2 o'clock on the morning of April 29, 1915, and was caught by the operator at a wireless station maintained by the Providence Journal. It was especially interesting because it followed none of the codes which they had previously observed. It was evidently important, because four attempts were made to put it through before the German station succeeded in overcoming the unfavorable static conditions which prevailed that morning. Every attempt to decipher it failed until somebody with a line on the internal activities of the German Embassy remembered that during that morning Prince Hatzfeldt, of the Embassy staff had been looking for a New York World "Almanac". The first two words of the message "Welt (German for "World") 1915" supplied the clue. Following the other numbers in the message as representing page, line and word in the World "Almanac" for 1915, the Journal men decoded the message as follows: "Warn Lusitania passenger (s) through press not voyage across the Atlantic." Two days later the German Embassy printed the new historic advertisement in the New York papers warning travelers not to cross the Atlantic, and a week later, on May 7th, the Lusitania was sunk by a German submarine.

A dramatic touch of suggestion of death in the message lies in the fact that the word not in it is taken from the first sentence of an obituary of the late Joseph Pulitzer, former owner of the World, which publishes the "Almanac." And another grim bit of irony in it is that the last four words were taken from an advertisement of a well-known marine motor headed "The Seal of Safety at Sea."

Two words of the message are spelled out in German. They are "warne," which in English is "warn"; and "durch," which means "through". The word "Botschaft" is German for "Embassy."

The German Ambassador, immediately after the sinking of the Lusitania, declared that the advertisement he had published in the New York papers was inserted on his own responsibility and had no particular reference to the Lusitania. As printed, this advertisement mentioned no ship by name. But the cipher message now reveals the fact that he deliberately lied, and that Berlin directed the whole tragedy.

Incidentally, Mr. Rathom's article adds that on the evening after the Lusitania was sunk, when friends of Von Bernstorff declared that he was overwhelmed with grief and secluded in his rooms in a New York hotel he was in reality giving a dinner in the apartments of a friend in New York and there toasted the commander of the U-boat which sunk the liner.

PATRIOTIC WEEK IS STARTED TODAY IN NUMBER SCHOOLS

Plans for Patriotic Week are progressing very satisfactorily according to Joseph E. Phillips, chairman of the Speakers' bureau.

Programs have been prepared by practically all teachers in the county. These programs will be supplemented by a fifteen minute talk by some member of the Speakers' bureau. Meetings in the larger boroughs will be held at night at which a combined program of all the rooms will be rendered. On Thursday night at 8 o'clock a meeting will be held in the New High school auditorium at Clearfield. Meetings in the four grade schools will be held Friday at 2:00 p. m. Prominent speakers from outside of the borough will be present at these meetings.

The drifted condition of the roads will prevent the use of automobiles and will, therefore, complicate the problem of speakers reaching all appointments. The solution of this consists in all owners of horses and sleighs volunteering their assistance in transporting speakers. The number of livery rigs will be entirely inadequate to meet the demand. Anyone who is willing to assist by loaning a horse and sleigh should get in touch with Mr. Phillips.

Owing to the trolley lines being tied up in the lower part of the country and the schools being idle this week because of the weather the meetings scheduled for Morrisdale, M'huson, Allport and Munson are postponed until next week. The Morrisdale meeting will be held on Friday evening, February 8th and the other meetings will be held on Thursday evening, February 7th. Speakers have been assigned for these meetings and they are all planning to be on hand with the best there is in them.

Change in Speakers
Curtis Reed will speak at Clover Hill only. Mans Reed will speak at Pine Grove instead of Plymptonville and S. C. Reed will speak at Plymptonville.
Prof. Taylor at Karthaus, Friday afternoon.
T. E. Moore will speak at the Union school near Grampian.

COLORED SLASHER PICKED UP

Allen Peyton, the Southern negro who badly slashed Jack Michel at the Harbison-Walker brick works several weeks ago and who succeeded in getting away after the wielding of the razor, was picked up by the police of Williamsport Monday last and Chief McHenry went to Williamsport this morning to bring Peyton to jail here.

He will be called to answer for his crime at February court. Michel's wounds were only superficial and he is about alright again.

LITTLE MARIAN GARDNER DEAD

Marian, the three year old daughter of Mr. and Mrs. C. F. Gardner formerly of Clearfield died on Wednesday at Boardman from croup. Remains were brought to Clearfield and burial was in Hillcrest cemetery on Saturday.

VATERLAND WITH CLEARFIELDERS ON BOARD LANDS SAFELY IN FRANCE

(By United Press)
A French City, Jan. 30.—The great steamer Leviathan, formerly the Vaterland has arrived at a European port carrying thousands of American soldiers, after an uneventful voyage and without sighting a submarine. It is permissible to announce that the transports Covington, Cincinnati, President Lincoln, President Grant, Powhatan and Madewaska all North German Lloyd steamers which were seized by the United States at the outbreak of the war together with the George Washington and Mt. Vernon and six other former German and Austrian vessels have also arrived. They all reported a safe passage. They carried thousands of American troops and thousands of tons of supplies. They have arrived at a European port ten months earlier than the German agents thought when they were smashing the machinery of the Vaterland.

Announcement is also made that the steamer Von Baron Stuben, and also von Baron DeKalb are now in active service.

Many Clearfield County boys are known to be on board the Vaterland and common report has it that there are ten thousand troops on the giant ship Leviathan, which before we took it from the German was called the Vaterland.

ADMINISTRATOR OF FOOD TO PROHIBIT BIG FLOUR PROFIT

The following regulations concerning and governing the sale of flour and its substitutes were received today by County Food Administrator John F. Short from State Food Dictator Howard J. Heinz of Pittsburgh. Everybody should familiarize themselves with these conditions:—

To prevent hoarding flour following President's proclamation we suggest that you enforce ruling reference to quantity sales of flour outlined in our letter of December nineteenth. The sale of flour by retailers, millers or other dealers in towns or cities to individual consumers shall be in one eighth to one fourth barrel quantity or less in rural or foreign communities in one fourth to one half barrel quantity or less. Any evidence of consumer buying in excess of quantities above mentioned will be dealt with severely under hoarding act.

Gross maximum profit for wholesalers in flour should not exceed from fifty to seventy five cents per barrel. Profit exacted by retail dealers in original mill packages should not exceed from eighty cents to a dollar twenty per barrel, depending upon character of service performed. Where retailers sell in amounts less than original mill package the gross profit should not exceed one cent per pound. Any profits in excess of these or in excess of that obtained in pre-war times will be considered cause for an investigation.

Substitutes for wheat flour should be sold at not more than a reasonable advance over actual purchase price of particular goods sold without regard to market or replacement value at time of such sale. Please give this publicity.

CLEO SCHENCK BADLY INJURED

Cleo Schenck, of West Fifth avenue was quite seriously injured this morning when he fell off the trolley at the coal mine of the Penn Public Service Company, located on the old McEnally farm.

The injured man was employed as a coal digger at the mine and fell down through the rock dump.

He suffered a serious skull fracture, had a finger broken and one hand pretty badly smashed up.

He was taken to the Clearfield hospital where he remains in a precarious condition.

MRS. JENNIE LEAVY DEAD

Mrs. Jennie Leavy, widow of the late James L. Leavy died this morning at her home corner of Second and Cherry streets after a very brief illness as the result of an attack of pneumonia.

Proper obituary and funeral announcement tomorrow.

than original mill package the gross profit should not exceed one cent per pound. Any profits in excess of these or in excess of that obtained in pre-war times will be considered cause for an investigation. Substitutes for wheat flour should be sold at not more than a reasonable advance over actual purchase price of particular goods sold without regard to market or replacement value at time of such sale. Please give this publicity.

WILL SELL FISH AT BARGAIN PRICES TO SAVE OUR MEATS

Agent Clark of the Federal Food administration bureau was in Clearfield recently and made arrangements for the shipping of a car load of fish into Clearfield next week. The fish will be frozen lake trout and will be retailed at something less than fifteen cents per pound.

It has been decided to apportion 5,000 pounds for Clearfield and the balance will be distributed in the towns along the Moshannon, such as Morrisdale, Munson, Winburne, Osceola, Houtzdale and that region.

The local distribution will be made by Thom Bros. at their Market street store. The idea of the selling of fish at this low price is to conserve the meat supply.

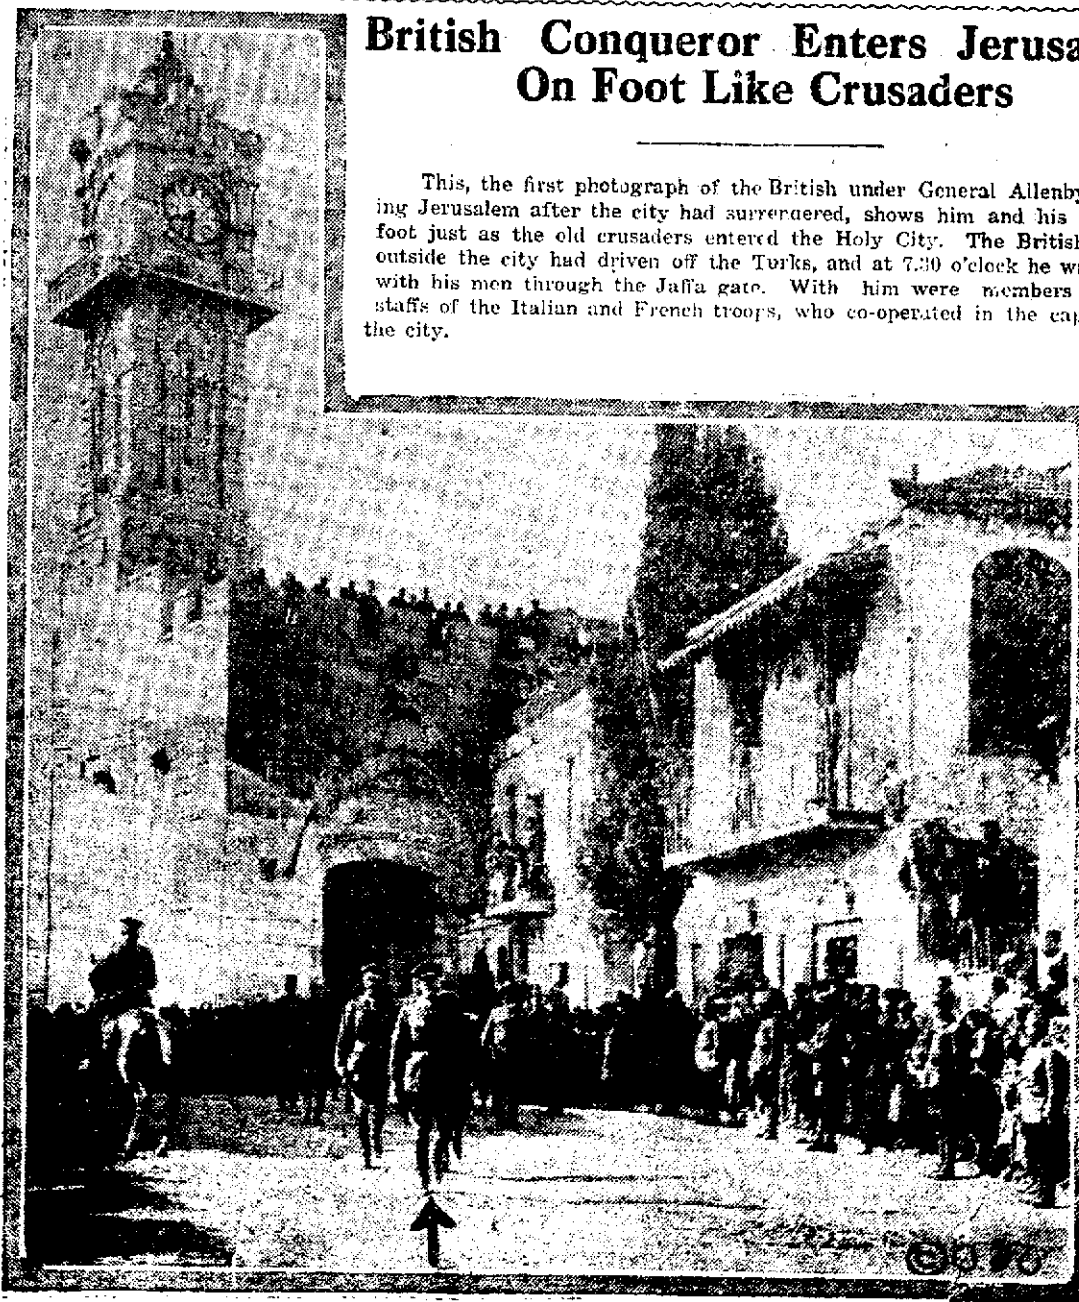

TRUSTEES ELECTED

At a meeting of the congregation of the West Side M. E. Church Monday evening the following trustees were elected: Harry Owen, Clarence Kramer, C. V. Shirley, H. J. Hoover, Nelson Crumner, W. H. Bush and Wallace Kester.

Australian soldiers in the field have contributed \$500,000 to the Commonwealth War Loan.

British Conqueror Enters Jerusalem On Foot Like Crusaders

This, the first photograph of the British under General Allenby entering Jerusalem after the city had surrendered, shows him and his men on foot just as the old crusaders entered the Holy City. The British forces outside the city had driven off the Turks, and at 7:30 o'clock he walked in with his men through the Jaffa gate. With him were members of the staffs of the Italian and French troops, who co-operated in the capture of the city.

INTERNAL TROUBLES GERMANY GROW BIGGER

Reports From Berlin Show Big
Strike Menacing Militarist
Leaders Of Our Enemies

STRIKERS NUMBERS ENLARGE

(By United Press)
London, Jan. 30.—Berlin and a score of other towns and cities near the German capital were in the grip of a big strike according to dispatches from Copenhagen and Berne. The dispatches declared that between 75,000 and 100,000 men were out. A dispatch passed by the censorship at Berlin stated that the ranks of employees out in the strike numbered 40,000. Danzig and Hamburg caught the contagion, it was said.

The Workmen's Committee of 500 appointed an "action committee" to represent it at meetings. The committee named twenty—ten men and ten women—and included in its members Philip Schiedemann, Dr. Eberts, Dr. Hasse, Ledebour, Dittmann and Dr. Braun. All these are socialists. Great significance was attached to the appointment of the "action committee". That the Majority Socialists headed by Schiedemann and the minority division headed by Dr. Hasse and Ledebour have combined to force government recognition is believed.

Socialists Make Demands
Schiedemann and Hasse and two workmen called on Under-Secretary Wallroff and demanded that all negotiations in connection with the strikers be held in the presence of workmen. Bolsheviki reports stated that it was not known whether Wallroff would agree to that or not. The Under-Secretary repeatedly declared that he would negotiate only with a Reichstag committee representing the Socialists. Schiedemann and Hasse's purpose in calling upon Wallroff with the two workmen was tantamount to the demand that the Under-Secretary amend his announcement that the government would not meet with the strikers. Late dispatches from Berlin said that in addition to the thousands out on strike they were being joined by hundreds every hour and that 75,000 in the great city were on strike late today.

Zurich, Jan. 30.—Two hundred and fifty thousand workmen were striking in Berlin early yesterday and 50,000 additional were to go out today, according to a copy of the Berlin Vorwarts Socialist organ received here today. Official Berlin dispatches received here declared that the Socialists "strictly adhere to the strikers." On good authority it was stated that workers in the great Krupp factory had struck. The entire war industry is now at a stand still, the Vorwarts declared. At Hamburg shipyards workers struck, and the employees of the Kiel Navy yards have been out since Sunday.

Amsterdam, Jan. 30.—Five hundred thousand strikers were out on Monday in the city of Berlin alone according to a copy of the German Socialist newspaper Vorwarts received here today. Five airplane factories, it was said, were forced to suspend operation.

SENATOR HUGHES DIES

Trenton, N. J., Jan. 31.—United States Senator William Hughes, senior senator from New Jersey, died in the Mercy hospital here today after a long illness.

BRITISH LOSE TRANSPORT

London, Jan. 30.—The British transport Aragon was torpedoed and sunk in the Mediterranean December 30, with a loss of 610 lives and the admiralty announced today. A destroyer which went to the rescue was also sunk. The Osmaich, a mercantile auxiliary was also attacked on December 31.

Be sure to turn out to the patriotic school meetings this week.

Facing Mutiny in Navy and
Revolt in Army Socialist
Movement Gaining Ground

LATEST AIR RAID IS FAILED

(By United Press)
Copenhagen, Jan. 30.—A German airplane was shot down today by the Danish navy. The plane was carrying a bomb and was reported to have been shot down by the Danish navy. The plane was shot down by the Danish navy. The plane was shot down by the Danish navy.

Germany, facing mutiny in the navy and revolt in her army and ready torn by serious labor disturbances, is apparently in the grip of a Socialist combination.

The gravity of the internal situation was intensified by rumors of soldiers on the Eastern front had some of their officers and that some of the German navy at Kiel had been responsible for the labor disturbances there. Bolsheviki declared that hundreds of thousands of workers are now striking and "hundreds are joining the strike hourly."

The Socialists have apparently solidated with Schiedemann and Hasse as their leaders. The government recognition of the strikers is demanded. Ukraine has been declared a free state. The Bolsheviks have been declared a free state. The Bolsheviks have been declared a free state.

No Danger To France
The edge was taken from a sensational threat against the safety of American Ambassador Francis B. Saypol by anarchists at Heidelberg by an announcement that the Bolsheviks had overthrown the Red Guard in the Polish city. The American government is obtaining all information regarding the threat but has planned its action as yet.

The city anarchists notified Saypol that he would be held "personally responsible" for the imprisonment of Alexander Berkman, the anarchist who was convicted of obstructing the draft.

RENO MISSED TRAIN

Reno, the magician, missed his train and will not be here until tomorrow. Please tell your friends that he will not be here tonight but will be here tomorrow night.

NOTICE TO GAS CONSUMERS

THE CRISIS IN AUSTRIA

The European despatches leave no room for doubt that Austria-Hungary is now in the shadow of a great crisis. On all sides the question is: "And is this the beginning of the end? Is the great polyglot empire of central Europe, the proudest aristocracy of the century, the bulwark of monarchy, the invulnerable fortress of Catholicism and the strong hold through the ages of the towering house of Hapsburg doomed to go down at last, under the onslaughts of its own people?"

In the present crisis facing the dual monarchy, the saying of Thucydides is fulfilled that a country of many races always tends toward revolution. Its composite character, even more than the conditions arising from the war, is the secret of the empire's troubles.

In race, language and religion, the empire is equally complex. Roughly speaking, the inhabitants include about 17,500,000 Slavs of various kinds, embracing Croats, Slavonians, Czechs, Serbs, Poles, etc.; 9,000,000 Germans, 6,000,000 Magyars, several million Wallachs or Roumanians, a million or more Jews, half a million Italians, and minor contingents of Armenians, Bulgars, Greeks, Albanians, Turks and others, each with its own language, literature, manners and customs. Religious creeds also vary. About two-thirds of all are Roman Catholics. Something more than one-half of the Magyars are Evangelical Protestants, while Greek Catholics make up about one-tenth of the whole.

Bohemia appears to be the present storm-center. The Bohemians have long cherished a desire for independence and from all accounts they evidently see in the present crisis an opportunity to get a few steps nearer their goal even if they do not gain it completely.

The Czechs have never entered into the present war with enthusiasm. It is a German-made war and the Czech has no love for the German. While in the minority numerically, the Germans are the dominant race in the Austro-Hungarian empire and they have unceasingly worked to preserve their supremacy by throttling every attempt of the Czechs, the Magyars and the other elements of the polyglot nation to extend their political influence.

Despite these efforts, the Czech books and newspapers have multiplied. A Czech university was founded at Prague. In 1891, after a long and furious agitation Czech was made the official language of Bohemia, and the Germans were politically driven to the wall.

For generations the Czechs of Bohemia, the Slovenes of Carnia and the Wends of Carinthia have been thorns in the flesh of the Germanized Austrian Government, and countless and far-reaching in their potency have been the concessions these alienated nationalities have wrung from the imperial parliament, tending, one and all, to the ultimate independence of self-government of these provinces of the empire. The prerogatives the Austrian Germans enjoyed and exercised once upon a time, prerogatives which secure to them a complete ascendancy over the heterogeneous nationalities active in the educational and political life of the country, are now likely to be lost to the irretrievably.

EAT LESS MEAT IF BACK HURTS

A glass of Salts to flush kidneys if bladder bothers you

Back pain, kidney trouble, bladder irritation, urinary troubles, are all signs of kidney and bladder trouble. A glass of Salts to flush kidneys is the best remedy for these troubles. It is a natural, harmless, and effective remedy. It is sold in every drug store.

POLITICAL ANNOUNCEMENTS

We are authorized to announce the name of Dr. J. H. Jones as a candidate for the office of county clerk in the next election. Dr. Jones is a resident of Clearfield and is a member of the Clearfield County Board of Supervisors. He is a man of high character and ability and is well qualified for the office.

Gossip for Tonight's Tea Table

Mrs. Harry Christy of Indiana, who has been spending several weeks at the home of her cousin Frank Row on South Second street left this morning for New York where she will visit friends.

Mrs. Amcha Baker left yesterday for Washington D. C. to visit with friends.

W. B. Potter of Kaufman, Pa. visited business in town yesterday.

Shirley of Pittsburgh, who has been visiting her daughter Mrs. Philip Reed who had been a surgical patient at the hospital and is now convalescing at the home of Mrs. Frank Row left today for her home.

Mrs. Chas. Kurtz entertained the members of the Current Event Club this afternoon at her home on West Front street. There was a splendid meeting and the social part of the afternoon was most delightful.

Mrs. A. I. Adams is seriously ill at her home on Cherry street.

Rev. and Mrs. Baker arrived here today from New Oxford Pa. Rev. Baker is called to serve a pastor of the Lutheran church.

Rev. F. V. Brown delivered a patriotic address at O'Connell last evening.

Mr. Donald Snyder of Tyrone is visiting friends in town.

Mrs. Charles Hyskell of Grampian spent last evening shopping here.

W. C. Penz of DuBois was attending to his duties at the court house today.

Mrs. Ashcroft of Sandy town was in Clearfield yesterday.

J. A. Slaght of DuBois, transacted business in town yesterday.

Mrs. Orrell Davis left yesterday for Blue Bell to resume her duties as a teacher in the schools there. The schools have been closed since November on account of the smallpox cases.

Mrs. Kate Langberry of Carwensville was shopping in our stores yesterday.

Mr. M. A. Kessler of Carwensville was among the out of town shoppers here today.

Mrs. E. H. Althoff of Woodland was shopping here yesterday.

Mrs. A. V. Penz and Mr. Edmond of Blue Bell spent yesterday shopping in our stores.

Ray Mitchell of Bells Landing was in town on business yesterday.

Mrs. Max Stiel of Huntingdon, is visiting her parents Mr. and Mrs. D. W. Anderson has returned from Syracuse, N. Y. where she accompanied her son Carl who entered Cornell University.

Mrs. James Leavy is seriously ill with pneumonia at her home on Second street.

Richard Gilbert returned home last evening from Indianapolis, Ind. where he was attending the third annual convention of the United Mine Workers. Mr. Gilbert is secretary and treasurer of District No. 2 of the U. M. W. of A.

Charles F. Kurtz returned home yesterday from a business trip to Philadelphia.

Charles Palmer of Woodland spent yesterday with relatives in town.

Raymond Wallace who enlisted in the Motor Mechanics and successfully passed the first examination here for the motor mechanics at the State Armory at Harrisburg.

WOMAN RAISES RATS FOR GOVERNMENT

Grassy, Mass., Jan. 30.—The common enemy of the soil since rat in the face of which the most dignified woman makes a squirrel look like a couple when it comes to climbing counters—helping to win the war. Probably few know that many an airplane soaring high in the sky carries a rat as part of the crew, that it is played and are now playing an important part in the evolution of the submarine, because rats are domesticated.

The United States government is using hundreds of rats in war time experiments, and many of them are being supplied by Miss Abbie Lathrop, who lives here in a neat little white cottage and cares for a family of a thousand rats and mice.

Miss Lathrop, a native of North Dakota, broke all feminine traditions seventeen years ago when she began raising rats and mice as a means of earning a living.

The "Fat Lady" as she is known here, keeps her pets in wire covered boxes in sheds near the cottage. She handles them without fear and many a rat to time they are allowed to live in open boxes in the cottage and make no attempt to get out.

Miss Lathrop lives alone and it is understood her feminine friends no longer visit at her house, but she is not at all alone. She has a large family of rats and mice and she is not at all alone.

The government uses rats and mice chiefly in an experimental way. The rats are unusually sensitive to changes in the atmospheric conditions and at different altitudes exhibit unusual symptoms which indicate certain conditions of the air pressure.

In submarine depth tests and in the experiments to learn the correct pressure of the artificial air supply of submarines, rats play an important part in establishing facts in relation to human life and the efficiency of underwater craft.

SURPRISE WEDDING

A church wedding was performed last Wednesday evening by Rev. Rich of the West Side M. E. church. The prominent parties of this wedding were Arnold Nelson and Mrs. Naomi Howe both of Clearfield.

They certainly pulled one over on their friends when they so suddenly decided that it would be cheaper to keep one fire burning, instead of two.

This marriage was a surprise. Two months ago but was fully expected to be announced a little in advance. However, many hearty congratulations were pressed on the young couple as they start their journey through life together.

The bride is the daughter of Mr. and Mrs. A. H. Bowers who resides near the Clearfield hospital. Since her graduation from the Clearfield High school in 1917 Mrs. Nelson has been employed as a stenographer at the Clearfield Fire Brick company. Although she still holds her position it is thought that her resignation will be needed in and he will resume the responsibility of keeping her husband happy and contented.

The groom is the son of Mr. and Mrs. Elmer E. Nelson of Mt. Zion. He is a fine young man of good ambition and will be sorely missed by his home when they find out he has picked up a girl to spend his leisure hours with. He will be in the first class of the draft which goes into effect February 1st.

Mr. and Mrs. Nelson were married in the city hall of Clearfield.

OUT TO FRANCE

Our boy, out to France now. As happy as a bird. If every young man had a heart like this.

We would soon have the boys here.

They are invited to stay over. And do the best they can. To fight for their dear country. And show what it is to be a man.

Although we have some ladders. To be all upon some day. Who will go in just a second. And be a hero for the fray.

Perhaps they will be fighting in the trenches. And the boys will be in the front. And the boys will be in the front. And the boys will be in the front.

New hat. This is the best. This is the best. This is the best.

White coat. They are now. They are now. They are now.

When they bring the boys home. They are now. They are now. They are now.

The boys are now. They are now. They are now.

When they bring the boys home. They are now. They are now. They are now.

JOHN LIVINGSTON DEAD

The venerable John Livingston, who has been seriously ill for many weeks, passed peacefully into rest at his home on West Locust street at 8:30 o'clock this morning. Mr. Livingston was one of Clearfield's oldest and most respectable citizens. He is survived by a large family of children.

Proper obituary and funeral notice tomorrow.

After fulfilling the duties of her position for nearly 25 years, Mrs. Anne F. Livingston of Allentown, the oldest of the factory inspectors of Pennsylvania in point of service, has been retired on a pension by order of Governor Brumbaugh.

TAGGING SHOVELS TO SAVE FUEL

(By United Press.)
Washington, Jan. 30.—More than twenty-one million school children are today bringing to the attention of America the absolute necessity of saving coal.

The school children are making a house to house canvass, tagging coal shovels with screaming notices to "Save Coal and Win the War."

Fuel Administrator Garfield designated today "Shovel Tag Day" and called upon the army of school children to aid the government in seeing to it that users of coal both large and small, save at least a shovel of coal today.

The tags being tacked to the shovel of millionaires and the more humble alike, bear the following notes to remind each person that a shovelful of coal saved means just so much additional power and help and support for the American soldier and sailor on the front-line.

"Save that shovelful of coal a day for Uncle Sam."

"Cover furnace and pipes with asbestos or other insulation, also weather-stap your windows or stuff cracks with cotton."

"Keep your rooms at 68 degrees (the best for health)."

"Heat only the rooms you use all the time."

"Test your pipes by sitting. If you find much good coal, there is something wrong with your heater. See a furnace expert."

"Write to the maker of your furnace or stove for practical directions for running economically."

"Save gas and electric light as much as possible. This will save coal for the nation."

"The fuel administration points out that the tag day is different from all other tag days. Instead of asking for cash contributions, the school children will demand that householders save money—for food, for war savings stamps, for liberty bonds, and, at the same time, add to the government's coal pile."

TELLS HOW SHE DROVE AWAY DIGESTION TROUBLE

Prominent Veterinarian's Wife Tells of Long Suffering—Despaired of Finding a Cure

"TOOK ACID IRON MINERAL AND IS PRAISING IT NOW"

"I almost despaired of ever being relieved of my digestion trouble," writes still another lady who at last found relief, Mrs. Lulu "Les" Morris of Elizabeth City, wife of a well known veterinarian there.

Thousands of women drag about listless, lacking life and vitality all because their digestion isn't good and they get no strength from food and things they eat. To gain relief read what she says:

"I despaired of being relieved. I suffered a long time, but after hearing so many words of praise favoring Acid Iron Mineral I started taking it and each bottle I took improved my health and condition until I feel perfectly alright now and go about my work with so much more pleasure. I was truly miserable before I took it, but now recommend it to everybody as it will do so much good for those troubled with ailments it is intended to cure."

The above tribute to this remarkable highly concentrated product of a really wonderful mineral deposit located in Mississippi and sold under the third year old "A-I-M" trademark proves that people troubled with that draggy, worn, weak, run down feeling due to stomach, digestion, blood and uric acid troubles. Thousands of people know how it drags the mounds to feel half sick the whole day long and their praise of Acid Iron Mineral proves it builds folks up rapidly again. A dollar bottle can be procured at most any drug store. For sale by Stewart Drug Store and good stores generally.

ULCERATED JAW QUICKLY CURED

Ten Minutes After First Put On Pain Was Nearly Gone

An ulcerated jaw and neuralgia cured by Dr. J. D. Brackbill of 1211 Sixteenth St. At home, Pa., to show genuine. How she found relief for her jaw.

I should say that one could endure with neuralgia and ulcerated jaw. Took several kinds of treatment but could not get relief. I heard of 20th CENTURY LINIMENT and got a bottle from my druggist. Ten minutes after applying the liniment inside and outside my jaw I had relief and after three or four applications the pain was gone and the swelling reduced.

I tried 20th CENTURY LINIMENT and it worked. I would recommend it to you. Get 20th CENTURY LINIMENT at your druggist. 50 cents and \$1 the bottle.

Mrs. L. P. Brown of Regina, Sask., on her way to Oklahoma was a passenger on a train which became snow-bound near Burlington, Iowa, and she took her place with employees of the road in shoveling snow from the track.

CURWENSVILLE GIRL ENTERS SERVICE

Mrs. Edith Patton has just completed the course in the Atkinson Automobile school at Washington, D. C. and has received her certificate which entitles her to do any war work in the automobile line she may choose.

Mrs. Patton contemplates entering the ambulance service. She is to be congratulated on her patriotic endeavor.

The Sale of White

An Event of Utmost Interest and Providing Worth-While Economies

Splendidly Prepared With Ample Stocks of White Goods
And At Prices That Assure You Wonderful Savings

The fact that stands out most prominent in this event is this--Preparations for this event have been going on for the last 12 months yet our buyers have experienced the utmost difficulty in securing merchandise. Then again price has entered this season with such emphasis that it is now a serious consideration. So when we tell you that the special reductions in this sale make it worth while to buy now, even if you will not use white goods for several weeks, you know we are justified in making such a statement. We have been very fortunate in securing a number of special lots of SHEETS, PILLOW CASES, SHEETINGS, MUSLINS, TABLE LINENS, TOWELS, MUSLIN UNDERWEAR, ETC., these will be placed on our tables and counters and will be sold at prices way under to-days market prices.

Friday, February 1st, at 9 O'clock Sharp The Sale of White Begins
BE HERE EARLY

We advise you to buy all the domestic white goods you can use in the next twelve months at this sale as prices later will be higher—much higher.

SHEETS AND PILLOW CASES
Please take careful note of the sizes, qualities and prices. They are values that are well worth comparing with those that you will find elsewhere. The thrifty housekeeper will be first at our counters to take advantage of these special values.

NUMBER 12

DECODED MESSAGE SHOWS BERNSTORFF HYPOCRITE

EDITOR OF PROVIDENCE JOURNAL MAKES
PUBLIC MESSAGE HIS OFFICE TOOK
FROM THE WIRELESS

THEN DECIPHERED INGENIOUS CODE

(By United Press)
A cipher message which proved that Berlin directed the sinking of the Lusitania is made public for the first time in the World's Work magazine, published today. John R. Rathom, editor of the Providence Journal, which exposed numerous German plots in this country during the last three years, in an article giving in detail the methods he used to unearth the work of the German agents, quotes this message from his files, and explains how it was decoded. The message in cypher reads as follows: From—Berlin Foreign Office.

To Botschaft, Washington.
\$69 (44-W)—Welt nineteen-fifteen warne 179 29 1 stop 175 1 2 stop dursch 622 2 4 stop 19 7 18 stop LIX 11 3 4 5 6

This cipher message came through from Nauen, Germany, to Sayville, Long Island, at 2 o'clock on the morning of April 29, 1915, and was caught by the operator at a wireless station maintained by the Providence Journal. It was especially interesting because it followed none of the codes which they had previously observed. It was evidently important, because four attempts were made to put it through before the German station succeeded in overcoming the unfavorable static conditions which prevailed that morning. Every attempt to decipher it failed until somebody with a line on the internal activities of the German Embassy remembered that during that morning Prince Hatzfeldt, of the Embassy staff had been looking for a New York World "Almanac". The first two words of the message "Welt (German for "World") 1915" supplied the clue. Following the other numbers in the message as representing page, line and word in the World "Almanac" for 1915, the Journal men decoded the message as follows: "Warn Lusitania passenger (s) through press not voyage across the Atlantic." Two days later the German Embassy printed the new historic advertisement in the New York papers warning travelers not to cross the Atlantic, and a week later, on May 7th, the Lusitania was sunk by a German submarine.

A dramatic touch of suggestion of death in the message lies in the fact that the word not in it is taken from the first sentence of an obituary of the late Joseph Pulitzer, former owner of the World, which publishes the "Almanac." And another grim bit of irony in it is that the last four words were taken from an advertisement of a well-known marine motor headed "The Seal of Safety at Sea."

Two words of the message are spelled out in German. They are "warne," which in English is "warn"; and "durch," which means "through". The word "Botschaft" is German for "Embassy."

The German Ambassador, immediately after the sinking of the Lusitania, declared that the advertisement he had published in the New York papers was inserted on his own responsibility and had no particular reference to the Lusitania. As printed, this advertisement mentioned no ship by name. But the cipher message now reveals the fact that he deliberately lied, and that Berlin directed the whole tragedy.

Incidentally, Mr. Rathom's article adds that on the evening after the Lusitania was sunk, when friends of Von Bernstorff declared that he was overwhelmed with grief and secluded in his rooms in a New York hotel he was in reality giving a dinner in the apartments of a friend in New York and there toasted the commander of the U-boat which sunk the liner.

PATRIOTIC WEEK IS STARTED TODAY IN NUMBER SCHOOLS

Plans for Patriotic Week are progressing very satisfactorily according to Joseph E. Phillips, chairman of the Speakers' bureau.

Programs have been prepared by practically all teachers in the county. These programs will be supplemented by a fifteen minute talk by some member of the Speakers' bureau. Meetings in the larger boroughs will be held at night at which a combined program of all the rooms will be rendered. On Thursday night at 8 o'clock a meeting will be held in the New High school auditorium at Clearfield. Meetings in the four grade schools will be held Friday at 2:00 p. m. Prominent speakers from outside of the borough will be present at these meetings.

The drifted condition of the roads will prevent the use of automobiles and will, therefore, complicate the problem of speakers reaching all appointments. The solution of this consists in all owners of horses and sleighs volunteering their assistance in transporting speakers. The number of livery rigs will be entirely inadequate to meet the demand. Anyone who is willing to assist by loaning a horse and sleigh should get in touch with Mr. Phillips.

Owing to the trolley lines being tied up in the lower part of the country and the schools being idle this week because of the weather the meetings scheduled for Morrisdale, M'Hammon, Allport and Munson are postponed until next week. The Morrisdale meeting will be held on Friday evening, February 8th and the other meetings will be held on Thursday evening, February 7th. Speakers have been assigned for these meetings and they are all planning to be on hand with the best there is in them.

Change in Speakers
Curtis Reed will speak at Clover Hill only. Mans Reed will speak at Pine Grove instead of Plymptonville and S. C. Reed will speak at Plymptonville.
Prof. Taylor at Karthaus, Friday afternoon.
T. E. Moore will speak at the Union school near Grampian.

COLORED SLASHER PICKED UP

Allen Peyton, the Southern negro who badly slashed Jack Michel at the Harbison-Walker brick works several weeks ago and who succeeded in getting away after the wielding of the razor, was picked up by the police of Williamsport Monday last and Chief McHenry went to Williamsport this morning to bring Peyton to jail here.

He will be called to answer for his crime at February court. Michel's wounds were only superficial and he is about alright again.

LITTLE MARIAN GARDNER DEAD

Marian, the three year old daughter of Mr. and Mrs. C. F. Gardner formerly of Clearfield died on Wednesday at Boardman from croup. Remains were brought to Clearfield and burial was in Hillcrest cemetery on Saturday.

VATERLAND WITH CLEARFIELDERS ON BOARD LANDS SAFELY IN FRANCE

(By United Press)
A French City, Jan. 30.—The great steamer Leviathan, formerly the Vaterland has arrived at a European port carrying thousands of American soldiers, after an uneventful voyage and without sighting a submarine. It is permissible to announce that the transports Covington, Cincinnati, President Lincoln, President Grant, Powhatan and Madewaska all North German Lloyd steamers which were seized by the United States at the outbreak of the war together with the George Washington and Mt. Vernon and six other former German and Austrian vessels have also arrived. They all reported a safe passage. They carried thousands of American troops and thousands of tons of supplies. They have arrived at a European port ten months earlier than the German agents thought when they were smashing the machinery of the Vaterland.

Many Clearfield County boys are known to be on board the Vaterland and common report has it that there are ten thousand troops on the giant ship Leviathan, which before we took it from the German was called the Vaterland.

liners. Announcement is also made that the steamer Von Baron Stuben, and also von Baron DeKalb are now in active service.

ADMINISTRATOR OF FOOD TO PROHIBIT BIG FLOUR PROFIT

The following regulations concerning and governing the sale of flour and its substitutes were received today by County Food Administrator John F. Short from State Food Dictator Howard J. Heinz of Pittsburgh. Everybody should familiarize themselves with these conditions:—

To prevent hoarding flour following President's proclamation we suggest that you enforce ruling reference to quantity sales of flour outlined in our letter of December nineteenth. The sale of flour by retailers, millers or other dealers in towns or cities to individual consumers shall be in one eighth to one fourth barrel quantity or less in rural or foreign communities in one fourth to one half barrel quantity or less. Any evidence of consumer buying in excess of quantities above mentioned will be dealt with severely under hoarding act.

Gross maximum profit for wholesalers in flour should not exceed from fifty to seventy five cents per barrel. Profit exacted by retail dealers in original mill packages should not exceed from eighty cents to a dollar twenty per barrel, depending upon character of service performed. Where retailers sell in amounts less than original mill package the gross profit should not exceed one cent per pound. Any profits in excess of these or in excess of that obtained in pre-war times will be considered cause for an investigation.

Substitutes for wheat flour should be sold at not more than a reasonable advance over actual purchase price of particular goods sold without regard to market or replacement value at time of such sale. Please give this publicity.

CLEO SCHENCK BADLY INJURED

Cleo Schenck, of West Fifth avenue was quite seriously injured this morning when he fell off the tippie at the coal mine of the Penn Public Service Company, located on the old McEnally farm.

The injured man was employed as a coal digger at the mine and fell down through the rock dump.

He suffered a serious skull fracture, had a finger broken and one hand pretty badly smashed up.

He was taken to the Clearfield hospital where he remains in a precarious condition.

MRS. JENNIE LEAVY DEAD

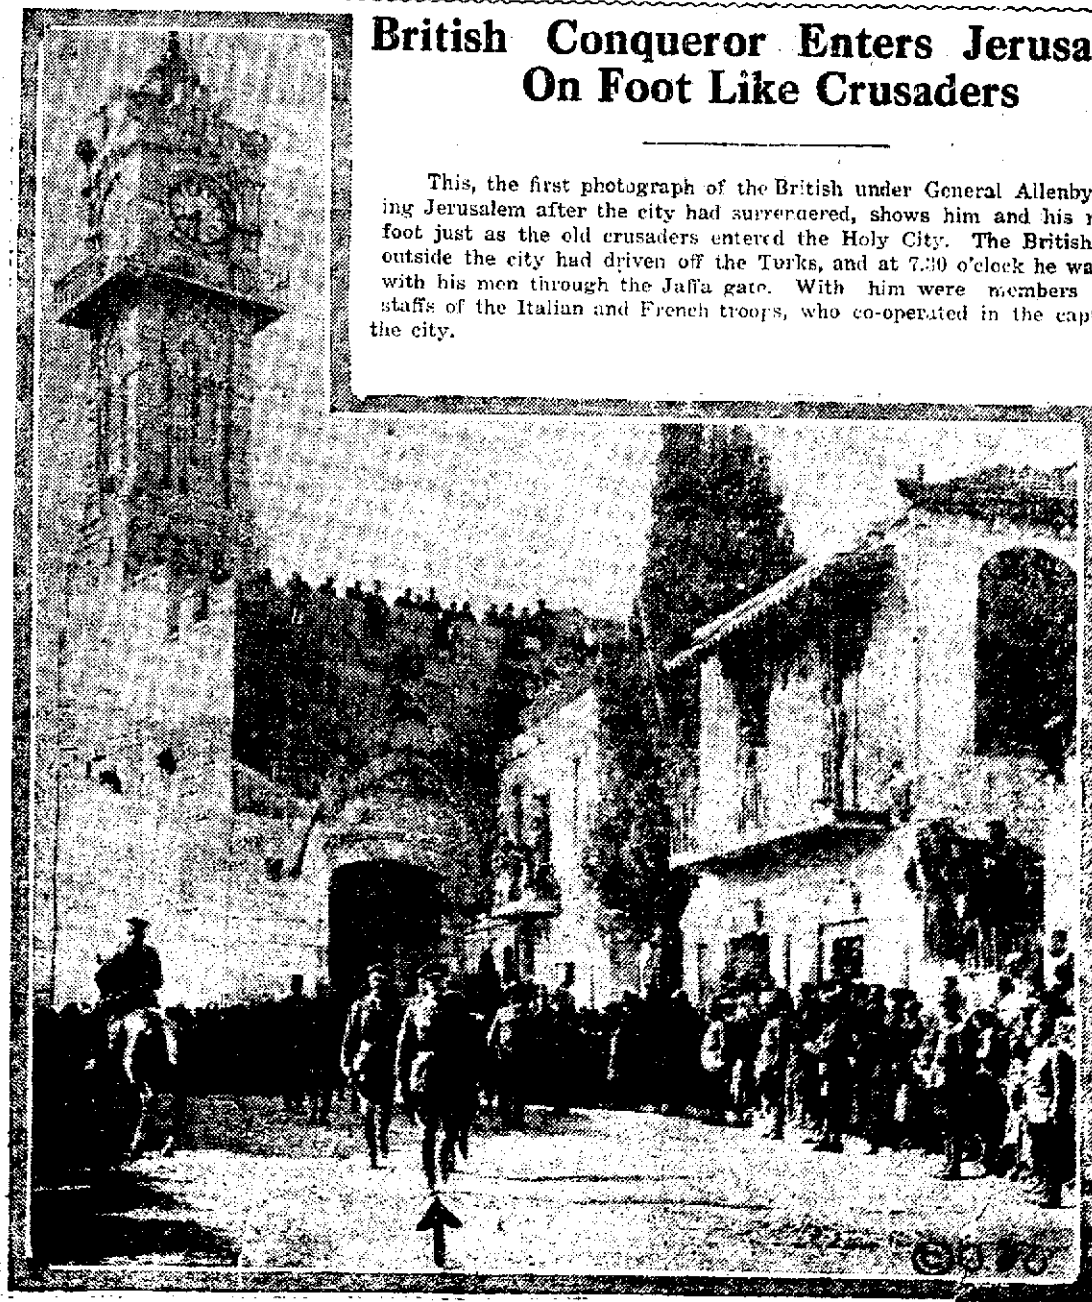

Mrs. Jennie Leavy, widow of the late James L. Leavy died this morning at her home corner of Second and Cherry streets after a very brief illness as the result of an attack of pneumonia.

Proper obituary and funeral announcement tomorrow.

At a meeting of the congregation of the West Side M. E. Church Monday evening the following trustees were elected: Harry Owen, Clarence Kramer, C. V. Shirley, H. J. Hoover, Nelson Crumner, W. H. Bush and Wallace Kester.

British Conqueror Enters Jerusalem On Foot Like Crusaders

This, the first photograph of the British under General Allenby entering Jerusalem after the city had surrendered, shows him and his men on foot just as the old crusaders entered the Holy City. The British forces outside the city had driven off the Turks, and at 7:30 o'clock he walked in with his men through the Jaffa gate. With him were members of the staffs of the Italian and French troops, who co-operated in the capture of the city.

INTERNAL TROUBLES OF GERMANY GROW BIGGER

Reports From Berlin Show Big
Strike Menacing Militarist
Leaders Of Our Enemies

STRIKERS NUMBERS ENLARGE

(By United Press)
London, Jan. 30.—Berlin and a score of other towns and cities near the German capital were in the grip of a big strike according to dispatches from Copenhagen and Berne. The dispatches declared that between 75,000 and 100,000 men were out. A dispatch passed by the censorship at Berlin stated that the ranks of employees out in the strike numbered 40,000. Danzig and Hamburg caught the contagion, it was said.

The Workmen's Committee of 500 appointed an "action committee" to represent it at meetings. The committee named twenty—ten men and ten women—and included in its members Philip Schiedemann, Dr. Eberts, Dr. Hasse, Ledebour, Dittmann and Dr. Braun. All these are socialists. Great significance was attached to the Socialist coalition regarding the appointment of the "action committee". That the Majority Socialists headed by Schiedemann and the minority division headed by Dr. Hasse and Ledebour have combined to force government recognition is believed.

Socialists Make Demands
Schiedemann and Hasse and two workmen called on Under-Secretary Wallroff and demanded that all negotiations in connection with the strikers be held in the presence of workmen. Bolsheviki reports stated that it was not known whether Wallroff would agree to that or not. The Under-Secretary repeatedly declared that he would negotiate only with a Reichstag committee representing the Socialists. Schiedemann and Hasse's purpose in calling upon Wallroff with the two workmen was tantamount to the demand that the Under-Secretary amend his announcement that the government would not meet with the strikers. Late dispatches from Berlin said that in addition to the thousands out on strike they were being joined by hundreds every hour and that 75,000 in the great city were on strike late today.

Zurich, Jan. 30.—Two hundred and fifty thousand workmen were striking in Berlin early yesterday and 50,000 additional were to go out today, according to a copy of the Berlin Vorwarts Socialist organ received here today. Official Berlin dispatches received here declared that the Socialists "strictly adhere to the strikers." On good authority it was stated that workers in the great Krupp factory had struck. The entire war industry is now at a stand still, the Vorwarts declared. At Hamburg shipyards workers struck, and the employees of the Kiel Navy yards have been out since Sunday.

Amsterdam, Jan. 30.—Five hundred thousand strikers were out on Monday in the city of Berlin alone according to a copy of the German Socialist newspaper Vorwarts received here today. Five airplane factories, it was said, were forced to suspend operation.

SENATOR HUGHES DIES

Trenton, N. J., Jan. 31.—United States Senator William Hughes, senior senator from New Jersey, died in the Mercy hospital here today after a long illness.

BRITISH LOSE TRANSPORT

London, Jan. 30.—The British transport Aragon was torpedoed and sunk in the Mediterranean December 30, with a loss of 610 lives and the admiralty announced today. A destroyer which went to the rescue was also sunk. The Osmaich, a mercantile auxiliary was also attacked on December 31.

Be sure to turn out to the patriotic school meetings this week.

Facing Mutiny in Navy and
Revolt in Army Socialist
Movement Gaining Ground

LATEST AIR RAID IS FAILED

(By United Press)
Copenhagen, Jan. 30.—A German airplane was shot down today by the news of the German strike as reported in various dispatches.

Germany, facing mutiny in the navy and revolt in her army and ready torn by serious labor disturbances, is apparently in the grip of a Socialist combination.

The gravity of the internal situation was intensified by rumors of soldiers on the Eastern front and some of their officers and that some of the German navy at Kiel had been responsible for the labor disturbances there. Bolsheviki declared that hundreds of thousands of workers are now striking and "hundreds are joining the strike hourly."

The Socialists have apparently solidated with Schiedemann and Hasse as their leaders, and demand recognition of the Reichstag, Ukrainian for Socialists, and a demand for the Reichstag to be held in the presence of workmen. Bolsheviki reports stated that it was not known whether Wallroff would agree to that or not. The Under-Secretary repeatedly declared that he would negotiate only with a Reichstag committee representing the Socialists. Schiedemann and Hasse's purpose in calling upon Wallroff with the two workmen was tantamount to the demand that the Under-Secretary amend his announcement that the government would not meet with the strikers. Late dispatches from Berlin said that in addition to the thousands out on strike they were being joined by hundreds every hour and that 75,000 in the great city were on strike late today.

No Danger To France
The edge was taken from a sensational threat against the safety of American Ambassador Francis B. Saypol by anarchists at Heidelberg by an announcement that the Bolsheviks had overthrown the Red Guard in the Polish city. The American government is obtaining all information regarding the threat but has planned its action as yet. It is expected that the Bolsheviks will inquire of the Polish government to the threat.

The city anarchists notified Saypol that he would be held "personally responsible" for the imprisonment of Alexander Berkman, the anarchist who was convicted of obstructing the draft.

Air Raid Failed
German airmen made a third raid over London in the last 24 hours, but the last raid was without success as they did not penetrate the London defenses. Lord French, Commander in Chief of Home Defense announced today. He said one bomb was dropped on the southwest outskirts of the city and only slight damage was done. The statement reported some casualties in the southwest of the city. Lord French said that 15 enemy machines participated in the raid, and numerous British machines attacked the visitors.

RENO MISSED TRAIN

Reno, the magician, missed his train and will not be here until tomorrow. Please tell your friends that he will not be here tonight but will be here tomorrow night.

NOTICE TO GAS CONSUMERS

We have sufficient gas coal to last ONE WEEK. Customers are requested to use as little gas as possible.

WEDNESDAY EVENING, JANUARY 30, 1918.

THE CRISIS IN AUSTRIA

The European despatches leave no room for doubt that Austria-Hungary is now in the shadow of a great crisis. On all sides the question is: "And is this the beginning of the end? Is the great polyglot empire of central Europe, the proudest aristocracy of the century, the bulwark of monarchy, the invulnerable fortress of Catholicism and the strong hold through the ages of the towering house of Hapsburg doomed to go down at last, under the onslaughts of its own people?"

In the present crisis facing the dual monarchy, the saying of Thucydides is fulfilled that a country of many races always tends toward revolution. Its composite character, even more than the conditions arising from the war, is the secret of the empire's troubles.

In race, language and religion, the empire is equally complex. Roughly speaking, the inhabitants include about 17,500,000 Slavs of various kinds, embracing Croats, Slavonians, Czechs, Serbs, Poles, etc.; 9,000,000 Germans, 6,000,000 Magyars, several million Wallachs or Roumanians, a million or more Jews, half a million Italians, and minor contingents of Armenians, Bulgars, Greeks, Albanians, Turks and others, each with its own language, literature, manners and customs. Religious creeds also vary. About two-thirds of all are Roman Catholics. Something more than one-half of the Magyars are Evangelical Protestants, while Greek Catholics make up about one-tenth of the whole.

Bohemia appears to be the present storm-center. The Bohemians have long cherished a desire for independence and from all accounts they evidently see in the present crisis an opportunity to get a few steps nearer their goal even if they do not gain it completely.

The Czechs have never entered into the present war with enthusiasm. It is a German-made war and the Czech has no love for the German. While in the minority numerically, the Germans are the dominant race in the Austro-Hungarian empire and they have unceasingly worked to preserve their supremacy by throttling every attempt of the Czechs, the Magyars and the other elements of the polyglot nation to extend their political influence.

Despite these efforts, the Czech books and newspapers have multiplied. A Czech university was founded at Prague. In 1891, after a long and furious agitation Czech was made the official language of Bohemia, and the Germans were politically driven to the wall.

For generations the Czechs of Bohemia, the Slovenes of Carnia and the Wends of Carinthia have been thorns in the flesh of the Germanized Austrian Government, and countless and far-reaching in their potency have been the concessions these alienated nationalities have wrung from the imperial parliament, tending, one and all, to the ultimate independence of self-government of these provinces of the empire. The prerogatives the Austrian Germans enjoyed and exercised once upon a time, prerogatives which secure to them a complete ascendancy over the heterogeneous nationalities active in the educational and political life of the country, are now likely to be lost to the irretrievably.

EAT LESS MEAT IF BACK HURTS

A glass of Salts to flush kidneys if bladder bothers you

Rating meat regularly eventually produces back trouble in some form or other says the known authority, because the urea and meat acids the kidneys they become overburdened, get sluggish, clog up and cause much misery in the kidney region. Rheumatism, neuralgia, headache, and stomach complaint, uric acid, sleeplessness, bladder and urinary irritation.

The moment your back hurts, if kidneys seem acting right or if bladder bothers you get about four ounces of Jad Salts from any good pharmacy. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then see the difference. This famous salt is made from the juice of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates the delicate bladder.

Jad Salts cannot injure anyone. It makes a delightful, effervescent lithia-water, drink which millions of men and women take now and then to keep the kidneys and urinary organs in this avoiding kidney disease.

WOMAN RAISES RATS FOR GOVERNMENT

Grassy, Mass., Jan. 30.—The common enemy of the soldier in the sky is the rat. In the face of which the most dignified woman makes a squirrel look like a couple when it comes to climbing. Mrs. J. H. Jones of Bedford, who is a candidate for the office of county clerk in the next election, is a resident of Clearfield and is a member of the Clearfield County Board of Supervisors.

The United States government is raising hundreds of rats in war time experiments, and many of them are being supplied by Mrs. Abbie L. Throp, who lives here in a neat little white cottage and cares for a family of a thousand rats and mice.

Mrs. Lathrop, a native of North Dakota, broke all feminine traditions. Seventeen years ago when she began raising rats and mice as a means of earning a living.

The government uses rat and mice chiefly in an poison tests. The rodents are unusually sensitive to changes in the atmospheric conditions and at different altitudes exhibit unusual symptoms which indicate certain conditions of the air pressure.

In submarine depth tests and in the experiments to learn the correct pressure of the artificial air supply of submarines, rats play an important part in establishing facts in relation to human life and the efficiency of underwater craft.

A church wedding was performed last Wednesday evening by Rev. Rich of the West Side M. E. church. The prominent parties of this wedding were Anne Nelson and Mrs. Naomi Howe, both of Clearfield.

They certainly pulled one over on their friends when they so suddenly decided that it would be cheaper to keep one fire burning, instead of two. This marriage was a second time ago but was fully expected to be announced a little in advance.

The bride is the daughter of Mr. and Mrs. A. H. Bowers who resides near the Clearfield hospital. Since her graduation from the Clearfield High School in 1917, Mrs. Nelson has been employed as a stenographer at the Clearfield Fire Brick Company.

TAGGING SHOVELS TO SAVE FUEL

(By United Press)
Washington, Jan. 30.—More than twenty-one million school children are today bringing to the attention of America the absolute necessity of saving coal.

The school children are making a house to house canvass, tagging coal shovels with screaming notices to "Save Coal and Win the War."

Fuel Administrator Garfield designated today "Shovel Tag Day" and called upon the army of school children to aid the government in seeing to it that users of coal both large and small, save at least a shovel of coal today.

The tags being tacked to the shovel of millionaires and the more humble alike, bear the following notes to remind each person that a shovel of coal saved means just so much additional power and help and support for the American soldier and sailor on the front line.

"Save that shovel of coal a day for Uncle Sam."

"Cover furnace and pipes with asbestos or other insulation, also weather-stap your windows or stuff cracks with cotton."

"Keep your rooms at 68 degrees (the best for health)."

"Heat only the rooms you use all the time."

"Test your pipes by sitting. If you find much good coal, there is something wrong with your heater. See a furnace expert."

"Write to the maker of your furnace or stove for practical directions for running economically."

"Save gas and electric light as much as possible. This will save coal for the nation."

"The fuel administration points out that the tag day is different from all other tag days. Instead of asking for cash contributions, the school children will demand that householders save money—for food, for war savings stamps, for liberty bonds, and, at the same time, add to the government's coal pile."

JOHN LIVINGSTON DEAD
The venerable John Livingston, who has been seriously ill for many weeks, passed peacefully into rest at his home on West Locust street at 8:30 o'clock this morning.

Mr. Livingston was one of Clearfield's oldest and most respectable citizens. He is survived by a large family of children.

Proper obituary and funeral notice tomorrow.

After fulfilling the duties of her position for nearly 25 years, Mrs. Anne F. Livingston of Allentown, the oldest of the factory inspectors of Pennsylvania in point of service, has been retired on a pension by order of Governor Brumbaugh.

Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

ULCERATED JAW QUICKLY CURED

Ten Minutes After First Put On Pain Was Nearly Gone

An ulcerated jaw and neuralgia cured by Dr. J. D. Brackbill of 1211 Sixth Street, St. Louis, Mo., to whom you should write for full particulars.

I should say that one could endure with neuralgia and ulcerated jaw. Took several kinds of treatment but could not get relief. I heard of 20th CENTURY LINIMENT and got a bottle from my druggist.

Ten minutes after applying the liniment inside and outside my jaw I had relief and after three or four applications the pain was gone and the swelling reduced.

I tried 20th CENTURY LINIMENT and it worked. I would recommend it to you. Get 20th CENTURY LINIMENT at your druggist. 50 cents and \$1 the bottle.

Mrs. L. P. Brown of Regina, Sask., on her way to Oklahoma was a passenger on a train which became snow-bound near Burlington, Iowa, and she took her place with employees of the road in shoveling snow from the track.

CURWENSVILLE GIRL WANTS ENTER SERVICE

Mrs. Edith Patton has just completed the course in the Atkinson Automobile school at Washington, D. C. and has received her certificate which entitles her to do any war work in the automobile line she may choose.

Mrs. Patton contemplates entering the ambulance service. She is to be congratulated on her patriotic endeavor.

Mrs. L. P. Brown of Regina, Sask., on her way to Oklahoma was a passenger on a train which became snow-bound near Burlington, Iowa, and she took her place with employees of the road in shoveling snow from the track.

TELLS HOW SHE DROVE AWAY DIGESTION TROUBLE

Prominent Veterinarian's Wife Tells of Long Suffering—Despaired of Finding a Cure

"TOOK ACID IRON MINERAL AND IS PRAISING IT NOW"

"I almost despaired of ever being relieved of my digestion trouble," writes still another lady who at last found relief, Mrs. Lulu Lee Morris of Elizabeth City, wife of a well known veterinarian there.

Thousands of women drag about listless, lacking life and vitality all because their digestion isn't good and they get no strength from food and things they eat. To gain relief read what she says.

"I despaired of being relieved. I suffered a long time, but after hearing so many words of praise favoring Acid Iron Mineral I started taking it and each bottle I took improved my health and condition until I feel perfectly alright now and go about my work with so much more pleasure. I was truly miserable before I took it, but now recommend it to everybody as it will do so much good for those troubled with ailments it is intended to cure."

The above tribute to this remarkable highly concentrated product of a really wonderful mineral deposit located in Mississippi and sold under the third year old "A-I-M" trademark proves that people troubled with that draggy, worn, weak, run down feeling due to stomach, digestion, blood and uric acid troubles.

Thousands of people know how it digests the mounds to feel half sick the whole day long and their praise of Acid Iron Mineral proves it builds folks up rapidly again. A dollar bottle can be procured at most any drug store. For sale by Stewart Drug Store and good stores generally.
